

Observations:

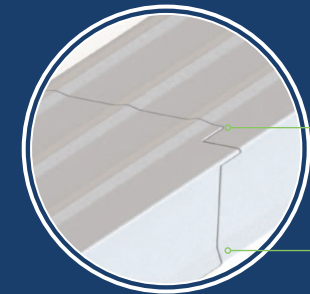

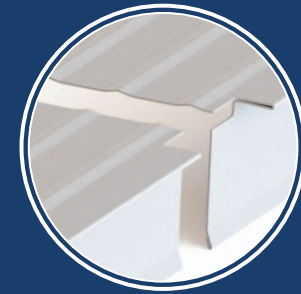

1. Fish Mouthing associated with the nose of the drip edge being pinched (*Figure A.*)
2. Buckling associated with:
 - Uneven Surfaces and Edges (*Figure B.*)
 - Over Nailing (*Figure B.*)
 - The Expansion and Contraction of Multiple Materials
3. Movement based on Coefficient of Expansion and Contraction (10^{-6} in/in °F)
 - OSB (*Figure C.*)
 - Fascia Board (*Figure D.*)
 - Steel or Aluminum (*Figure E.*)

The Performance Inspired Solution:

TruFit[®] Technology

Reduces Buckling Associated with Tight Overlaps and Expansion and Contraction of Multiple Materials

Dual-Hemmed for strength and clean lines

PreNotched for a perfect fit and easy alignment
