EXTRA STRENGTH FASCIA

TruLine[®]

EXTRA STRENGTH FASCIA

With so many building products on the market, it takes real innovation to rise above the crowd. Sometimes, it's the simple ideas that have the greatest impact. That's the thinking behind the latest improvement in our pre-engineered aluminum fascia.

Quality Edge pre-engineered fascia products will save builders and remodelers even more time and provide nearly seamless installation. Notched hems on both ends of the fascia allow it to always lay flat. No more time notching the fascia on site or bending trim coil! Installations are quicker and look smoother.

Our innovation gives you the edge.

Ti26 Alloy™

Performance Designed Alloy

Engineered from Ti26 High Performance Alloy

- A Titanium reinforced alloy
- Performance hardened alloy
- Engineered to reduce expansion & contraction
- 166% stiffer than ordinary fascia

TuffTech Finish

Lifetime Warranty Featuring **TuffTech** Finish

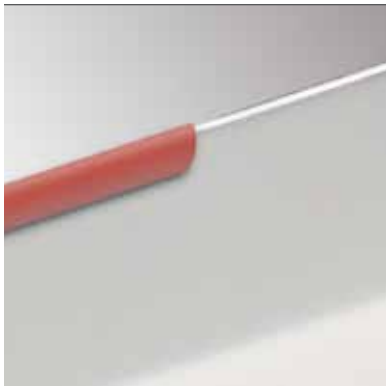

The Industries BEST Finish and Fade Warranty

- TuffTech features .008 mills vs. .004 mills of paint
- Harder surface than typical two coat acrylic finishes
- Better scratch resistance than typical acrylic finishes
- Better stain resistance
- Industry's best fade warranty

Smart Design

PreEngineered Fascia

ProNotched

- Better fitting
