NO-MAR
ALUMINUM COIL

TruCoil
Make sure your custom trim components retain their beautiful finish for years. With NO-MAR Q5000™ TruCoil, you can count on:

- SUPERIOR SCRATCH RESISTANCE
- STAIN INHIBITORS
- BETTER UV PROTECTION
- HARSH-CLIMATE COATING
- BRUSHED TEXTURE

**Strength to Weight Ratio**

NO-MAR TruCoil has 76% of the strength of carbon steel at 52% of the weight.

**Built-in Corrosion Resistance**

Resisting atmospheric and chemical corrosion, NO-MAR TruCoil protects itself better with an ultra-thin, super hard, transparent layer of aluminum oxide.

**High Tensile Strength**

NO-MAR TruCoil boasts a tensile strength of 32,000 PSI.

**Superior Physical Performance – with a finish that's 2x thicker than most trim coils**

NO-MAR outperforms vinyl, PVC and poly coil finishes in the ASTM Physical Performance Standards, Pencil Hardness, MEK Rub and Cold Impact tests. What contributes to its superior performance? NO-MAR coil features a finish with 8 mls/s of paint – that's twice the amount of paint used by most trim coil manufacturers. The result: your custom trim components retain their quality finish while being formed and installed and last longer.

**PHYSICAL PERFORMANCE**

**Outstanding UV Protection**

The damaging effects of prolonged exposure to the sun’s ultraviolet rays can cause premature fading, irregular discoloration, and even hinder a material’s ability to perform its intended function. With the unique properties of the NO-MAR finish, you get over 4 times the UV protection than PVC and other leading coil finishes.

**GLOSS RETENTION**

Stain Resistant

Trees, oils, salt spray and pollution are just a few elements that can stain and damage your home’s exterior. The stain inhibitors in NO-MAR protect your home from all of these and more.

Brushed Texture

When we set out to develop a better coating system, we didn’t want to simply improve its physical performance. We wanted to develop a superior texture with a semi-gloss that would complement that gloss and texture of both vinyl and painted wood. NO-MAR provides a distinctive brushed texture that keeps its beauty year after year.

See, Feel, Hear the Difference

Try the ASTM Nickel Marking Rub Test. Just rub the flat edge of the nickel on the samples!
Designer color palette
Choose from this extensive collection of designer colors to blend, complement or accent the home's exterior.
